

Dear Plantwise Country Partners

Hope you and your families are safe in this pandemic situation.

Last year CABI has developed a new e-learning course called “*Crop Pest Diagnosis (CPD)*” and we offered free limited time offer to our plant doctors and member country staff to complete the course and get their certificates. This yielded some very helpful findings, which we are already incorporating into our new courses.

This year, we would like to offer another new e-learning course i.e. “*Crop Pest Management*” to you and your staff for free for a limited-time! This course is an exciting opportunity for additional continued professional development on the topic of plant health.

**Please could you forward and inform your Plant Doctor and other plant health advisors in your organisation (only) that the course is open from 1<sup>st</sup> July until 30<sup>th</sup> September.** Once you start, you will have up to 1 month to complete. The last date for starting will be 31st August.

To access the Crop Pest Management course, simply follow the instructions below... and enjoy!!

With best regards,

Faheem

#### [How to get into the course](#)

1. You will need an account on <https://academy.cabi.org/>.
  - a. If you have forgotten your username or password, go to the [Forgot Password](#) page. The system can send them to your email.
    - b. If you need a new account, go to the [New account](#) page
  2. When you are logged in, go to: <https://academy.cabi.org/course/view.php?id=4>
  3. To enrol in the course, please use the Enrolment Key: **PlantDoctor2021** in the box that appears below the main image:
  4. The course will take about 15 hours to complete. At the end of each module, you will find an assessment and also a feedback questionnaire. You may be required to complete these in order to move on and to obtain your certificate.
  5. If you have any questions, please use the Help button on the bottom right of the screen (not in the mobile app)

Thank you for your help with our course offer.
